Electrifying SR&ED For The Future

Range of Activities Recoverable Under the SR&ED Tax Relief Program

An industry such as Energy & Utilities that have so much pressure to constantly develop new, cost effective, and economically safe processes while staying competitive. Often have items overlooked and being under claimed. When involved with such a large amount of research and development your company has the opportunity to file an SR&ED claim, and get credit for your innovations.

Examples of Eligible SR&ED activities: (Energy & Utilities Industry)

- Developing oil-fired integrated systems for low-energy housing.
- Developing learning-based fuzzy logic controls for residential combustion systems.
- Developing retrofit condensing gas furnaces.

If you find your company currently takes part in any of these activities, then why wait to take advantage of the SR&ED tax credit program to receive healthy credit for your innovations?

You are only a few steps away from getting what your company truly deserves for creating, innovating, and developing new products and/or processes.

The Scientific Research and Experimental Development Program:

SR&ED incentives take the form of tax credits, and accelerated or additional tax deductions for expenditures made on research and development. Canadian businesses of all sizes, in all sectors are eligible to receive SR&ED tax credits. The incentives range from 20% of the expenditure, to almost 50% in favorable circumstances.

SR&ED expenditures can include **wages, materials, machinery, equipment, overheads**, and **SR&ED contracts**.

Braithwaite Technology Consultants Inc. can assist you in obtaining tax credits for research and development activities. Whether your work involves basic research, applied research, or experimental development, Braithwaite can take the uncertainty out of the filing process and get you the credit you deserve for your innovation.
